TECHNICAL SKILLS

Languages
Python, JavaScript (ES6+), SQL, HTML5, CSS3

Backend
Django, Django REST Framework, ASGI/WSGI, RESTful API Design

Frontend
React, Three.js, Responsive Web Design

AI & Integration
Agentic AI Systems, LLM Integration, LangChain, Prompt Engineering

Databases
PostgreSQL, SQLite, Normalization, Indexing

Tools & Methods
Git, GitHub, Docker (basics), Agile/Scrum

PROFESSIONAL SUMMARY

Python Django full stack developer building backend architectures, RESTful APIs, and responsive frontend applications. Experience integrating agentic AI workflows and LLM-driven automation into web applications using Django, Django REST Framework, and React.

PROJECTS

FinSight AI - Intelligent Personal Finance & Cash-Flow Forecasting Platform

PayMatch AI - Intelligent Payment Reconciliation & Discrepancy Detection System

FinSim - Personal Financial Stress Testing & Scenario Simulator

EDUCATION & TRAINING

Python Django Full Stack Development (6-Month Program)
Avodha, Vyttila, Ernakulam, Kerala | In progress (5 of 6 months completed)
Python 3, Django, DRF, Relational Databases, Frontend Integration, API Development, Full Stack Project Engineering

B.Sc, Computer Science
KMM, Thrikkakara, Ernakulam, Kerala | Completed
Data Structures, Object-Oriented Programming, Database Systems, Software Engineering, Operating Systems, Computer Networks

Higher Secondary Education (HSS), Science & Computer Applications
Sahodaran Memorial Higher Secondary School, Cherai, Ernakulam, Kerala

Secondary School Leaving Certificate (SSLC)
Rama Varma Union High School, Cherai, Ernakulam, Kerala
